

**CENTRAL COAST REGIONAL WATER QUALITY CONTROL BOARD
895 AEROVISTA PLACE, SUITE 101, SAN LUIS OBISPO, CA 93401**

Water Resource Control Engineer

RPA 130-44

The Central Coast Regional Water Quality Control Board is seeking a qualified applicant to fill a position in the Stormwater Unit. The Central Coast Water Board's Vision of Healthy Functioning Watersheds promotes healthy aquatic habitat, clean groundwater and sustainable land management.

DUTIES: This position will be responsible for regulating stormwater pollution and hydromodification issues within a portion of the Central Coast Region. Duties include enrollment of municipalities under the statewide municipal stormwater permit, auditing of municipal stormwater programs, informal enforcement action, issuance of 401 Water Quality Certifications, commenting on local planning and development decisions, and promotion of Low Impact Development.

DESIRABLE QUALIFICATIONS:

- Knowledge of and experience in stormwater quality controls and best management practices, municipal stormwater program management, low impact development, municipal land use planning and development policies and procedures, construction and industrial site best practices for stormwater quality control, watershed management, water quality assessment, Geographic Information Systems (GIS), relational databases, and statistical and data analysis techniques for water quality and hydrology.
- Excellent verbal and written communication skills.
- Ability to interface at community and public outreach functions to communicate data and information associated with Stormwater and other Regional Board programs.
- Excellent project management skills, including managing multiple projects.
- Leadership skills.
- Ability to work cooperatively and promote partnerships with internal staff and representatives of other government agencies and/or other private entities.

Applicants must hold a current Water Resource Control Engineer appointment or possess list, transfer or reinstatement eligibility. This is a permanent, full-time position. Final filing date is "open until filled." Submit standard State application and resume to Cyndee Jones at the above address. For more information regarding this position please contact Lisa Horowitz McCann at (805) 549-3132. Please include RPA# 130-44 on your application.
